Projects

- Binkeyit - Blinkit Clone** | *React.js, Redux Toolkit, JavaScript, Node.js, Express.js, MongoDB* ([Link](#)) **2024**
- Created a **full-stack e-commerce platform** inspired by Blinkit, enabling users to **browse, search, add to cart, and purchase products** with a seamless shopping experience.
 - Integrated an **admin dashboard** for managing **products, categories, orders, and user roles**, ensuring **efficient inventory control** and **order processing**.
- BookStore** | *React.js, Tailwind CSS, Vite, Node.js, Express.js, MongoDB, JWT, Context API* ([Link](#)) **2024**
- Developed a full-stack **BookStore** application using the **MERN stack**, implementing secure **user authentication** with **JWT** and building **RESTful APIs** for **book and user management**.
 - Designed the **frontend** with **React.js** and **Tailwind CSS**, managed state with **Context API**, and utilized **MongoDB** for data storage and **Vite** for fast development.

Achievements

- Founded and Managed Team Blood Reapers** **2021**
Spearheaded recruitment, strategy development, and operations for an esports team specializing in combat and strategic planning, ensuring growth and consistent performance.
- CEO of Esports Organization** **2023**
 - Directed operations, sponsorship acquisition, player management, and branding efforts for an esports team, leading successful tournament participation and fostering long-term development.
 - Worked with over 20 esports organizations to enhance team visibility, partnerships, and growth opportunities.
- Product Tester, Glip GG** **2023**
Conducted comprehensive tests of screen recording and streaming features, provided actionable feedback, and suggested UX improvements, enhancing the platform's competitiveness in the gaming market.
- Campus Representative, The Esports Club** **2024**
Organized esports tournaments, brand events, and influencer meet-ups at the college level, creating an engaged community of gaming enthusiasts.
- Founder & President, ADTC, T&P Cell, ANDC DU** **2024**
 - Founded and lead Alliance of Developers and Technical Creators (ADTC), empowering students with technical skills through workshops, hackathons, and industry collaborations.
 - Organized mentorship programs, bridging the gap between academia and industry.
 - Engaged 2000+ students from India's top 25 colleges via social media, expanding ADTC's nationwide reach.

Extra-Curricular Activities

- Esports Event Organizer:** Successfully planned and executed campus and professional-level gaming tournaments, improving community participation and brand visibility.
- Public Relations and Marketing:** Collaborated with sponsors, influencers, and media to promote esports teams and events, achieving measurable growth in sponsorships and audience engagement.
- Ambassadorial Leadership:** Promoted The Esports Club brand, growing its influence and fostering esports culture among college students.
